

# Ways You Can Protect Your Data:

This month we are covering how to Surf Safely

The remaining topics will be covered in future months

# Surf Safely

## Do

- Use wireless networks you trust and know are protected.
- Be cautious when using public computers.
- Ensure you are downloading legitimate apps from trusted publishers.
- Be aware that secure websites start with **https**, not http.
- Be sure to log out completely (which terminates access) when exiting all websites to prevent cybercriminals from obtaining your personal information.
- Consider purchasing a personal Wi-Fi hot spot.
- Hover over questionable links to reveal the true destination before clicking.

## Don't

- Use public computers to access confidential information or accounts, or to perform financial transactions.
- Click on websites you don't know or on pop-up ads or banners.
